

Questions & Answer

RFP 2014-09 Webb County Fire Station

A request for approval of equal alternatives/substituted products has been made.

We are asking proposers to provide a price on the plans and specifications as have been prepared and provided. Once a contractor has been selected, the Webb County engineer and attorneys will consider equal alternatives/substitutions during contract development.

There has also been a question on the number of square feet. That question will be answered at the pre-proposal conference.

Please bring your questions to the pre-proposal conference.
